STEFANIA LA VATTIATA

User Experience Designer

lavattiata.com | stefanialvs@gmail.com | (412) 983 1835 | Pittsburgh, PA

lavattiata.com | stefanialvs@gmail.com | (412) 983 1835 | Pittsburgh, PA

SKILLS

Interaction Design
Storyboarding
Wireframing
Creative Coding
Information Design
UI Prototyping
Usability Testing
User Research
UI Design
3D Modeling

TOOLS

Adobe After Effects
Adobe InDesign
Adobe Illustrator
Adobe Photoshop
Adobe XD
Figma
Miro / Mural
Sketch / Flinto
InVision
HTML
CSS
p5.js
Python
Fusion 360
Microsoft Office

LANGUAGES

Spanish - Native
English - Advanced
Italian - Basic
French - Basic
Chinese - Basic

INTERESTS

ML in UX
Augmented Intelligence
Data Visualization
New languages
Chess

EDUCATION

Master of Design   Sep 2019 - May 2021
Carnegie Mellon University

B.A. Industrial Design   Aug 2009 - May 2014
Monterrey Institute of Technology and Higher Education

WORK EXPERIENCE

Philips   Jul 2021 - Present
User Experience Designer - Pittsburgh PA, USA
- Designed and successfully implemented animations and UI screens for the Philips 3D Mask Selector software application in collaboration with interdisciplinary teams.
- Improved the Philips health band UI by updating the Philips Design Language System icons used and analyzing the optimal user experience of the device.

AutonLab   Oct 2019 - Jul 2021
User Experience Designer - Pittsburgh PA, USA
- Collaborated effectively with University of Pittsburgh interdisciplinary teams to develop the user interface of the UPMC health viewer for anomaly detection.
- Developed the graphic design of a data pipeline visualizer using Python and Jupyter notebook as tools for a Data Driven Discovery of Models (D3M) project.

Imaginaries Lab   Sep 2019 - Sep 2020
Research Assistant - Pittsburgh PA, USA
- Managed one of Philips-sponsored Sleep Ecologies projects about "Exploration of performance and sleep through caffeine tracking" with interdisciplinary teams at CMU.
- Co-authored the publication "Metaphors and imaginaries in design research for change", submitted for the Design Research for Change Symposium (2019).

Citigroup   Nov 2014 - Jul 2018
Project Manager - Mexico City, Mexico
- Created and managed the interaction design for collaborative platforms and agent interfaces for the Workforce Management software.
- Launched 3 projects successfully in coordination with global teams over a year, reducing the training delivery time by 46% in the Citi Call Centers in Mexico.

ACHIEVEMENTS

kynamatrix Research Network Grant Award   January 2021
Thesis project - Exploring AI applications in Interaction Design
Awarded the kynamatrix Research Network "Innovation through Collaboration" 2021 Grant Award for projects in design, engineering, and computer science.

CES 2021 Innovation Honoree Award   January 2021
Philips Respironics 3D Mask Selector
Awarded the Consumer Technology Association CES 2021 Innovation Honoree Award for the 3D Mask Selector product from Philips Respironics.The product uses an advanced 3D facial-scanning technology to help clinicians fit patients with the right mask.

iF Design Award - User Experience   April 2021
Philips Respironics 3D Mask Selector
Awarded the iF User Experience Design Award for the 3D Mask Selector product from Philips Respironics.
